Fig. 1

Fig. 3 is a cross-sectional view of a multi-layered structure. The structure features a central core (11) flanked by two side layers (12, 13). The core and side layers are composed of multiple sub-layers (9, 10, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29). Arrows indicate flow or movement through the central channel and across the layers.
